Spare Parts - Hardcovers

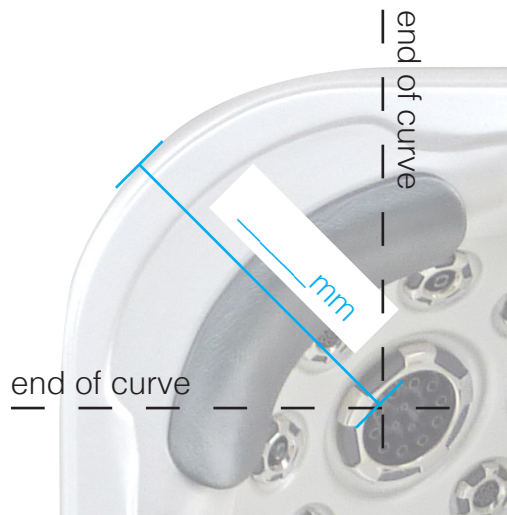

The easiest way to order a Hardcover is to simply identify the spa model you have.

If you are not sure of the spa model name, you will need to measure the spa that the hardcover is to fit.

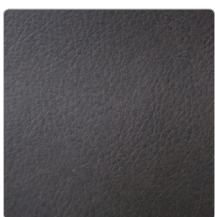

You need to supply exact dimensions of the length and width of your spa (required measurements in blue).

We also need to know the radius of the corner of your spa (required measurement in blue) so the corners of your new hardcover have a snug fit to retain heat. Some of our spa models differ in the shape of the corners.

Please choose the colour you require.

espresso

tan

blue

slate

beige

green
