 **sapphire spas.**  
australian made & family owned

Proudly Australian  
made & family owned

A SIMPLE STATEMENT BUT  
ONE WE ARE EXTREMELY  
PROUD OF

---

The level of pride shines through on every one of our spas, you'll find the same uncompromising build quality and component selection right across our range. Manufactured right here in Australia with optimum components, sourced worldwide from the very best available, every Sapphire Spa is backed by our unmatched Aussie Tough warranty. Big business stability, coupled with small business service guarantees you quality, consistency and reliability

With a long history of providing both comfort and innovation with our product, we have recently reviewed every shape, colour, massage layout and energy saving component to ensure you will receive years of pleasure from your Sapphire Spa.

Innovations such as our world leading Varidrive 80 – Variable Speed Massage pump allows you to select from 80 precise jet pressure settings, or alternatively activate one of the pre-programmed massage modes that will provide you with the ultimate relaxation.

We bring the benefits of Ozone & UV Light together in the Clearzone Water Sanitisation to provide the most efficient sanitisation process available saving you time and money on maintaining the best looking spa.

You know our spas are locally manufactured but, more importantly, they are locally serviced for your peace of mind. If, by some chance, you need our help, then one of our dedicated retail network team is only a local phone call away. Rest assured that you are protected by the Sapphire Spas lifecare commitment.

Above all else, our spas are world renowned for being the most comfortable, come and try one today, we are sure you will love them as much as we do.

A collection of our most loved spas for family & fun

cedar cabinet	✓
duratek cabinet	optional
lockable hardcover	✓
heatlockthermo+ insulation	✓

Enhancements available – see pg 26

# Installations

Here are some photos of our customers homes to give you ideas of where a spa can be installed:

## On a small balcony or patio

consult a structural engineer to ensure that your balcony/patio is capable of safely and adequately supporting the full weight of your spa when in use

## Backyard deck

consult a structural engineer to ensure that your decking is capable of safely and adequately supporting the full weight of your spa when in use

## Paved area

reinforced concrete slab of at least 100mm is a suitable foundation for your spa pool

## Spa in deck

you can build your deck right up to the edge of the spa cabinet, but the weight of the spa is supported underneath on a concrete slab in a pit for easy access

# mySplash

## Massage

relieve back, neck & shoulders / for every muscle on every body / stimulate & tone hips, thighs & buttocks

### neck & shoulders

Imagine four jets streaming down to release all the tension held in your neck, shoulders & upper back

### Oxygen detox

Our 'bed of bubbles' system infuses billions of oxygen-rich bubbles into your spa water. Negatively charged bubbles open and cleanse pores, removing impurities and encouraging rapid skin cell regeneration.

### Spinal massage

Positioned either side of the spine, these jets, together with warm water, stimulate the blood supply to aid in the recovery of aching muscles or damaged tissue.

### Acupressure massage

Strategically positioned cluster jets target your entire back for a luxurious, multi-point massage.

### Footcell massage

Just take a minute to remember where your feet have taken you today. We have created this massage system to reward your feet and calves to get them ready for another full day tomorrow.

### Legs, hips, thighs & buttocks

This purpose built recliner targets the muscles of your legs, hips, thighs, buttocks and calves to deliver an invigorating hydro workout without the sweat.

# Energy efficiency

For technical information refer to our website

# SUPERIOR PERFORMANCE WITH SUPERIOR FEATURES

- SQR jet system**

  - New spectrum jets on all sapphire spas.
  - SQR (Simple, Quick, Reliable) System.
  - Better seals to provide increased jet pressure.
- Superior performance**

  - 20% increase in pressure achieved via a more effective venturi.
  - Almost zero water bypass resulting in more water being forced into the jet.
  - Free flowing jet that allows greater pressure at jet face.
- Advanced manufacturing**

  - Less steps, less tools.
  - Less chance of errors and greater consistency.
  - Tried and tested in the USA and Europe
  - Superior comfort and ergonomics
- Unrivalled reliability**

  - Significantly reduced potential for leaks.
  - Introduction of a new locking mechanism.
  - Jets that can be removed with ease and are less prone to getting stiff.

# Enhancements: essential collection

**standard steps**  
Made from treated pine with cedar treads, then stained to match your spa, the standard step is available in a single or double step format.

**deluxe steps**  
Constructed from 32mm cedar, the deluxe step is available in 850mm wide or 1200mm wide options. A premium step for a premium spa.

**duratek steps**  
Moulded plastic design, available in coastal grey or espresso to match your duratek cabinet, the durastep provides a strong, lightweight and stable entry into your spa.

**mySpaLINK**  
Control your spa from anywhere in the world. The mySpaLINK module and 'app' allow you to connect to and take control of your spa, locally or remotely via a WiFi, 3G or 4G network, providing access to your spa from any location at any time.

**mySpaHiFi**  
Combined with mySpaLINK, mySpaHiFi delivers high definition stereo sound for your spa, offering exceptional sound clarity with subwoofer support.  
  
Stream music directly to your spa from any bluetooth smart device. Sophisticated transducer technology produces immersive underwater surround sound as the sound waves are fed through the spa shell & amplified by the volume of water.

**smartTOUCH digital touchpad**  
Large 4.3" viewing area, optimised for use outdoors, the anti-glare and antireflective screen is easy to use with wet or dry hands. With software tailored for use with your Sapphire Spa, intuitive menus let you take control of every function with ease.

**purewater ozone**  
Providing crystal clear water. The CD ozone sanitisation system allows you to minimise your chemical use and maintain beautiful water clarity.

**clearzone**  
We care how you feel in our spas, so we've created the purest sanitation method, that literally feels like you are bathing in drinking water.

**heat&cool pump**  
Spanet heat pumps are the most environmentally friendly and energy efficient spa heaters available in Australia. Experience savings of up to 75% over conventional electric heaters and 55% less than natural gas.
