

mySpachoice

Our choice of premium spas

 **sapphire spas.**
australian made & family owned

Proudly Australian
made & family owned

A SIMPLE STATEMENT BUT ONE WE ARE EXTREMELY PROUD OF

The level of pride shines through on every one of our spas, you'll find the same uncompromising build quality and component selection right across our range. Manufactured right here in Australia with optimum components, sourced worldwide from the very best available, every Sapphire Spa is backed by our unmatched Aussie Tough warranty. Big business stability, coupled with small business service guarantees you quality, consistency and reliability

With a long history of providing both comfort and innovation with our product, we have recently reviewed every shape, colour, massage layout and energy saving component to ensure you will receive years of pleasure from your Sapphire Spa.

Innovations such as our world leading Varidrive 80 – Variable Speed Massage pump allows you to select from 80 precise jet pressure settings, or alternatively activate one of the pre-programmed massage modes that will provide you with the ultimate relaxation.

We bring the benefits of Ozone & UV Light together in the Clearzone Water Sanitisation to provide the most efficient sanitisation process available saving you time and money on maintaining the best looking spa.

You know our spas are locally manufactured but, more importantly, they are locally serviced for your peace of mind. If, by some chance, you need our help, then one of our dedicated Australia wide team is only a local phone call away. Rest assured that you are protected by the Sapphire Spas life-care commitment.

Above all else, our spas are world renowned for being the most comfortable, come and try one today, we are sure you will love them as much as we do.

Welcome to the Sapphire family;
we're here for you

Welcome to our family

As part of the Sapphire family our level of care doesn't end once you hand over the money. Remember that, as a Sapphire Spa owner, you're protected by our lifecare commitment; just contact the team at your local store

Take the time to look through 'WELCOME to our Family' tab on our website:

PREPARE for your spa

everything you need to know once you've bought your spa, where to put it at home & how to prepare for the delivery

INSTALL your spa

everything you need to know as you're installing your spa, including technical information for your tradies

ENJOY your spa

we know all you want to do is jump in – nobody wants to read the manual! As part of the Sapphire Family we're here to guide you every step of the way with simple instructions & practical videos, as you enjoy your new spa at home

Tips & Tricks

we understand nothing ever goes to plan so here's the knowledge we've accumulated over the years

mySpa@Home help

is a comprehensive collection of 'how to' videos, manuals & quick references guides to have right by your side as you enjoy your new purchase

Thinking about
this spa all day

Installations

Here are some photos of our customers homes to give you ideas of where a spa can be installed:

On a small balcony or patio

consult a structural engineer to ensure that your balcony/patio is capable of safely and adequately supporting the full weight of your spa when in use

Backyard deck

consult a structural engineer to ensure that your decking is capable of safely and adequately supporting the full weight of your spa when in use

Paved area

a reinforced concrete slab of at least 100mm is a suitable foundation for your spa pool

Spa in deck

you can build your deck right up to the edge of the spa cabinet, but the weight of the spa is supported underneath on a concrete slab in a pit for easy access

relax and make memories

Massage

relieve back, neck & shoulders / for every muscle on every body / stimulate & tone hips, thighs & buttocks

neck & shoulders
Imagine four jets streaming down to release all the tension held in your neck, shoulders & upper back

Oxygen detox
Our 'bed of bubbles' system infuses billions of oxygen-rich bubbles into your spa water. Negatively charged bubbles open and cleanse pores, removing impurities and encouraging rapid skin cell regeneration.

Spinal massage
Positioned either side of the spine, these jets, together with warm water, stimulate the blood supply to aid in the recovery of aching muscles or damaged tissue.

Acupressure massage
Strategically positioned cluster jets target your entire back for a luxurious, multi-point massage.

Footcell massage
Just take a minute to remember where your feet have taken you today. We have created this massage system to reward your feet and calves to get them ready for another full day tomorrow.

Legs, hips, thighs & buttocks
This purpose built recliner targets the muscles of your legs, hips, thighs, buttocks and calves to deliver an invigorating hydro workout without the sweat.

entertain, invite everyone!

Energy efficiency

For technical information refer to our website

SUPERIOR PERFORMANCE WITH SUPERIOR FEATURES

- SQR jet system**

 - New spectrum jets on all sapphire spas.
 - SQR (Simple, Quick, Reliable) System.
 - Better seals to provide increased jet pressure.
- Superior performance**

 - 20% increase in pressure achieved via a more effective venturi.
 - Almost zero water bypass resulting in more water being forced into the jet.
 - Free flowing jet that allows greater pressure at jet face.
- Advanced manufacturing**

 - Less steps, less tools.
 - Less chance of errors and greater consistency.
 - Tried and tested in the USA and Europe
 - Superior comfort and ergonomics
- Unrivalled reliability**

 - Significantly reduced potential for leaks.
 - Introduction of a new locking mechanism.
 - Jets that can be removed with ease and are less prone to getting stiff.

Enhancements: essential collection

standard steps
Made from treated pine with cedar treads, then stained to match your spa, the standard step is available in a single or double step format.

deluxe steps
Constructed from 32mm cedar, the deluxe step is available in 850mm wide or 1200mm wide options. A premium step for a premium spa.

duratek steps
Moulded plastic design, available in coastal grey or espresso to match your duratek cabinet, the durastep provides a strong, lightweight and stable entry into your spa.

mySpaLINK
Control your spa from anywhere in the world. The mySpaLINK module and 'app' allow you to connect to and take control of your spa, locally or remotely via a WiFi, 3G or 4G network, providing access to your spa from any location at any time.

mySpaHiFi
Combined with mySpaLINK, mySpaHiFi delivers high definition stereo sound for your spa, offering exceptional sound clarity with subwoofer support.

Stream music directly to your spa from any bluetooth smart device. Sophisticated transducer technology produces immersive underwater surround sound as the sound waves are fed through the spa shell & amplified by the volume of water.

smartTOUCH digital touchpad
Large 4.3" viewing area, optimised for use outdoors, the anti-glare and antireflective screen is easy to use with wet or dry hands. With software tailored for use with your Sapphire Spa, intuitive menus let you take control of every function with ease.

clearzone
We care how you feel in our spas, so we've created the purest sanitation method, that literally feels like you are bathing in drinking water.

heat&cool pump
Spanet heat pumps are the most environmentally friendly and energy efficient spa heaters available in Australia. Experience savings of up to 75% over conventional electric heaters and 55% less than natural gas.
